WHAT IS VALID GATE SCORE: GATE score are usually valid for three years, for example if you have appeared for GATE in 2022 or 2023 or 2024 and your marks are above qualifying marks, you are eligible to apply in 2024 for M.E. / M.Tech / M.Arch. courses.

The next condition is about qualifying marks. Mere getting score does not show that its valid GATE score. Your score is ONLY VALID when it is above or equal to the score of qualifying marks. For example, if you have scored 20 marks and the qualifying marks for that year are mentioned as 25, then your GATE score is NOT VALID. Then you have to appear for PGCET-2024 examination.

Another question may arise, for this year I got 20 marks and qualifying score was 25, if next year qualifying marks decreased to 22, does it make my score valid? The simple answer is NO. The results for the same years will be considered as valid and invalid scores.

100 Marks - 100 Questions

✓ The PGCET-2024 will be held in one session for ME / M.Tech / M.Arch. courses conducted 100 marks with 150 minutes duration. Each question paper will be of (Objective) Multiple Choice type. The question paper will be in four different versions. Each question will have four different options.

100 Marks - 100 Questions

All questions are compulsory. In other words, there is no choice among questions. Candidate is expected to attempt all the questions, in order to obtain maximum marks. THERE WILL BE NO NEGATIVE EVALUATION WITH REGARD TO WRONG ANSWERS BUT MARKS WILL NOT BE AWARDED IN RESPECT OF MULTIPLE ANSWERS. The version code of the question paper will be boldly printed on facing sheet of the question paper.

1. Important Instructions to Candidates - On the days of examination:

Candidates will have to mark correct options on the Optical Mark Reader (OMR) answer sheet, which will be supplied at the beginning of the test. The entries pertaining to PGCET No., Subject, Version code etc are to be checked twice before proceeding to mark the answers.

Among the four options provided against a question, only one answer will be correct. The candidate should mark the correct answer by completely shading only one circle against a question number, using BLUE or BLACK ink ball point pen. More details about precautions to be taken while filling the particulars on OMR answer sheet is given below. The OMR answer sheet comprises of two sheets. The top sheet will be used for the purpose of marking correct answers and later scanning & evaluation and the bottom sheet will be returned to the candidates after completion of the test. The bottom sheet is coated with a special kind of chemical which acts as Carbon. When the candidate fills the circles on the top sheet, the pressure on the bottom sheet will automatically create a replica of the top sheet.

2. Optical Mark Reader sheets as Answer Sheets

The need for the replica has compelled us to design OMR sheet in such a way that all the information and the answers are marked only on one side. The top portion of the sheet is meant for furnishing the particulars about the candidates such as the Name, PGCET Number, Version code and serial number of the question booklet. The bottom portion is meant for marking the answers, affixing the signature of the room Invigilator & candidates and also for affixing the Left Hand Thumb Impression of the candidate. The space meant for the subject would have been pre-marked. The square blocks in each item should be filled by the candidate in capital letters and numbers. The circles corresponding to the letters or numbers are meant to be completely shaded using blue or black ink ballpoint pen only.

Why Ball Point Pen?

Remember, we are allowing the candidates to carry home a replica or facsimile of the OMR answer sheet and the OMR answer paper comes in a set of two sheets. When you shade the top sheet, the pressure will create a dark mark on the bottom sheet on the corresponding circle. If a pen with a nib is used, the pressure on the top sheet will not be sufficient to activate the chemical on the bottom sheet. On the other hand, a ballpoint pen exerts sufficient pressure to convert the bottom sheet chemical into a dark spot. That is why we want you to use a blue / black ink ballpoint pen only.

Important precautions to be taken while shading answers portion of OMR Answer sheet.

After the initial TEN minutes 120 minutes will be given to a candidate for shading the answers on the bottom portion of the OMR answer sheet. Against each question number, four circles will be provided corresponding to four options of the question paper. The candidates are required to shade only one circle corresponding to the correct answer.

The scanner is so sensitive to black and blue ink shades that even a slight residual ink mark or an unintended ink dot within a circle on the OMR answer sheet will be taken by it, as filled / shaded, at the time of scanning. Consequently, the candidate may lose marks. Therefore, please do not make any stray pen marks on the OMR answer sheets. As the scoring done by the scanner and the computer in tandem is final, a plea for erasing or neglecting the ink mark on a circle cannot be entertained. Therefore, candidates are advised to take extra precaution while shading the circles on the bottom portion.

THINK BEFORE YOU INK!

Once you darken a circle, there is no way to erase or to remove it. That way, your decision about a correct answer will be final. The invigilator will not permit you to use marker, white fluid or any other device to hide the shading already done and you will not be supplied with one more set of OMR sheet. If you spoil a sheet in your attempt to rub off the shading done on a circle, you may ruin your opportunities. If two circles are shaded in a row and even if one of the circles is partially rubbed off, the scanner will take it as a multiple attempt. Therefore, think twice before you shade a circle with ink. Darken only one circle for each question as shown against the CORRECT METHOD.

METHOD OF SHADING

The candidates should invariably preserve their 'PGCET 2024' OMR answer sheet replica for a minimum period of one year from the date of obtaining the admission order.

- (i) Entry of options by the candidates will begin only after the receipt of seat matrix from the Government. The details of the College wise, Course wise and Category wise seats available for allotment will be published on the KEA website http://kea.kar.nic.in which can be downloaded and printed.
- (ii) The candidate who becomes eligible after verification will only be considered for entry of options.

 The candidate may enter the course / college of his choice from among the seats available which is displayed at the time of entry of options i.e., college wise, category wise and course wise, discipline wise. The candidate will be allowed to enter all the options in the discipline to which he / she is eligible.

- (iii) Candidate shall enter the options for all the discipline at once. If the candidate is eligible for multiple disciplines i.e., both for MBA and MCA or MBA and M.E. / M.Tech or M.Tech and MCA, options can be exercised for all the discipline in the same entry form. Upon entry of preliminary information by the candidate on the internet at the specified URL, the option entry form will be displayed. (Candidate has to enter his secret key and valid Password.) The candidate has to first select the Discipline in the option entry form. Upon selection of a discipline, the entry form displays the list of colleges in case of MBA and MCA courses. In case of M.E. / M.Tech / M.Arch discipline the entry form display the list of colleges with their courses. The candidate has to enter the priority number in front of the displayed college / course to which they are eligible and interested.
 - (iv) That means, first option may be M.E. / M.Tech, second option may also be M.E. / M.Tech, third option may be MCA, fourth one may be again M.E. / M.Tech, fifth option can be MCA etc and so on.
- (v) There is no limit for entry of options. A Candidate can enter any number of options as he / she wishes to exercise on his / her own priority. Candidates are advised to enter more number of options to avoid the disappointment of not securing a seat. Any candidate has to enter the option in the priority as he / she desires. Candidates are advised to do thorough home assignment regarding the choices which they want to exercise, the college which they prefer, the course which they are interested to join etc. It is better to write the order of options on a sheet of white paper and discuss the same with your parents / guardians / mentors etc before actually entering same in the system. Your interest in the discipline, college infrastructure, course, distance from your place, availability of hostel etc may be some of the issues to guide your choices of options and advice of your parents. As it will save your time and minimize your chance of making mistake in option entry on the online option entry form. A candidate can enter any number of options through Online (Internet) of his choice of College / Colleges and courses in the order of the choice he / she desires to enter either in the Helpline Centers or on his / her own arrangement. Entry of options invited as per the schedule notified by KEA on the website http://kea.kar.nic.in The allotment will not proceed to the next rank candidate till the list of your options is completely searched for availability of a seat. The candidate may change the options as many times as he / she desires before the last date and time notified for entry of options. After entry of options candidate has to select the button submit and logout.

- (vi) Options recorded in the server on the last day and time of the notified schedule in each round will be frozen and only the frozen options will be considered for allotment of seats. The candidates are advised to take a print out of the option entered by them in each round after the last date and time for entry of options is over.
- (vii) Please enter URL or Website address http://kea.kar.nic.in or as indicated in the notification. Upon entry of URL you will find link like "PGCET-2024 OPTION ENTRY" and select the links regarding the information on many items.

NOTE: Candidates are advised not to start entering the options directly on the online option form on the internet without preparatory work at home on choice of options, as it leads to commission of mistakes / wrong entries / wrong order of preferences.

- (viii) Preparatory work at home: Allotment of seats depends entirely on the priority of options given by the candidates as per the merit / rank. Hence it is of utmost importance to familiarize oneself with the operation of the computer, the locking of seats so that the correct choice and options are entered. Practice of entering of options has to be undertaken as even an expert in computers would require a minimum of one hour for entry of about 500 options. Familiarity with the computer, prior knowledge of the college, course is essential to fill up options. Even a small mistake in entering the options may deprive a valuable seat in the desired college / course even though he / she is eligible for that seat as per his / her rank. Therefore, KEA suggests that the student should familiarize themselves in entering the options in the online option entry form. A home work of about an hour everyday is necessary for the students to familiarize themselves with the allotment. The following steps may be taken by the candidates before entering their options in the online option entry form.
 - The candidate should note the name of the college, the course offered in a separate sheet of paper.
 - The cut off rank for that particular college and course may be seen so that the candidate will get an idea about where he / she stand vis-à-vis his ranking.
 - Preparatory work should be commenced only after asserting their merit / rank order.
 - The priority of options among the colleges selected should be noted down.
 - A mock allotment on real time data given by the candidates will also be done before the actual commencement of the First Round, so that the candidate can know the college and course allotted as per his options. The candidate can also change his options after seeing the mock

allotment. This will help him to find out his standing as per his merit and as per options. The mock test is only to help the candidates familiarize and show them the course and college allotted to them and it should be in no way presumed that the same seat and college will be allotted to them in the actual allotment of seats. Because, the candidates have the option of changing the priority of the options entered by them after the mock allotment.

- The verification slip issued to the candidates indicates the category which he / she belongs, rank number for each discipline to which he / she eligible, special category if any etc. It will help in choosing the college or course or place of the college.
- It is better to write the order of options on a white paper and discuss the same with your parents / guardians / mentors etc before actually entering in the system.
- (ix) CUT OFF RANK: The cutoff ranks of previous years for all discipline college wise, course wise and category wise is hosted on the KEA website http://kea.kar.nic.in. The cut off rank shows the name of the college, course, category and the last rank in the particular college for a particular course for that year only. The cutoff rank is only for the information of the students and no inference shall be drawn on the availability of seats college wise and course wise for the year 2024-25. KEA does not take any responsibility whatsoever in this regard. The cutoff ranks give a fair idea about the last rank under each category admitted to a particular college / course during the previous year. Do not exercise your options based on cut-off ranks. The options should be exercised purely based on the candidate interest for college/course because cut-off ranks will not be same every year. And the candidate should make sure that he/she has not missed out any college/course he/she wishes to take admission and the same is ordered according to the priority.
- (x) The entire process of allotment is controlled by sophisticated software and high end computers which examine minutely the options given by the candidates for allotment of the best possible seat to the candidate as per the rank and options given. Therefore, it is very important that the candidate should be very clear about the choice of the course, discipline which he is interested in. For example if a candidate is interested only in MBA seats then he / she can enter the priority of options in all the colleges or only for interested colleges for allotment of MBA seats only. Likewise if a candidate is interested only in MCA course he / she can enter the priority of options to all the colleges or for interested colleges.
- (xi) Similarly a candidate may be interested only in M.E. / M.Tech / M.Arch and there are about 200 Colleges and a candidate is interested only in Digital Electronics course, then he / she can give

- his / her preference for Digital Electronics course only in all the colleges or for interested colleges. The computer will pick up the best options available as per merit and order of options. In other words the candidate is free to give as many options in as many courses in as many colleges as he deems fit. The more number of options the better it is for the candidate to secure a seat of his choice.
- (xii) If a candidate is eligible for two or more disciplines i.e., M.E. / M.Tech and MBA and his / her first desire is the M.E. / M.Tech Stream then in such case he / she has to give as much options as possible for M.E. / M.Tech Stream. The order of preference for M.E. / M.Tech Stream should be more than other disciplines. The computer in such case will find the best options as per the rank and allot a seat to the candidate if seats are available. OR
- (xiii) If a candidate is interested only in MBA he may skip the option of giving choice for / M.Tech Stream and concentrate only on MBA.
- (xiv) The candidates are advised to gather information about the colleges, the courses offered, infrastructure available, teaching faculty, laboratory facilities, hostel facilities and any other information which would help him / her in narrowing his options. The distance from his / her house, the mode of transport, the hostel facilities and the environment etc are also prime factors in deciding priority of options.

Candidates are advised not to wait till the last time and date but should key in their options well within the last date and time specified. KEA will not be responsible if a candidate fails to key in his / her options due to any reasons.

NOTE ON MOCK ALLOTMENT

After the entry of options are completed, based on the real data mock allotment will be carried out and the allotment status will be hosted on the KEA website for the information of the candidates. Two days time will be given to the candidates to verify the status of their allotment. Here, the candidate after ascertaining college and course allotted, if he / she wants to change / modify his / her options can do so within the stipulated date and time. Then based on the modified entry of options the real allotment will be carried out.

WHY DO WE CONDUCT MOCK ALLOTMENT?

Based on the Mock Allotment a candidate can know his / her status of allotment as per his / her priority of options. This gives a clear view to the candidate to change or retain the entered options. Candidate can come to know that the other candidate with lower merit has got seat which he was eligible but for his not entering that option. Therefore, candidates will be given one more choice to change the priority of options, deletion of or addition of options.

Due to change in the options by candidates after Mock Allotment, one may not get the same seat in the real allotment as was allotted in the mock allotment.

Candidate's Options Entry

(Your Priority Number (or your ranking for your seat option))

Candidates have to enter priority which is given in Numbers. Your priority number starts from 1 and ends in 999 against each course of particular college of specific course stream. The priority number is unique number for each course of all Streams. There will not be any separate priority number for each discipline i.e., M.E. / M.Tech., MBA, MCA.

For instance, you are giving priority number 1 (one) for M.E. / M.Tech., then that number should not be repeated to any other course of the other discipline such as MBA, MCA. While selecting the course in another stream the priority number should be given as 2, 3, 4 and as per your ranking preference.

The following example table will give an idea of entering options, disciplines, and course details.

Course Stream	College and Course	Priority of Option
ME / M.Tech	T80904	1
ME / M.Tech	T82204	2
ME / M.Tech	T85704	3
ME / M.Tech	T87304	4
ME / M.Tech	T85508	5
ME / M.Tech	T86906	6

MBA	B051MB	12
MBA	B130MB	13
ME / M.Tech	T81222	14
ME / M.Tech	T89122	15

The above table is only indicative and no inference can be drawn from it. Candidates have the liberty of giving priority of options / preferences of colleges / courses / stream as many as they are willing to join. Remember that at any stage, the priority of option column the same number should not repeat. (6) ILLUSTRATION FOR ALLOTMENT OF SEAT: (FOR THE BENEFIT OF THE CANDIDATES)

After the verification of documents and excising options by the candidate the seats will be allotted in two rounds i.e., (1) First Round (2) Second and Final Round

The following system will be followed for allotment of seats. Here is a sample illustration of choice of options by a candidate:

CASE1:

Name of the candidate: Raju

Category: GM M.Tech Rank: 1200 MBA: 4000

In this case the candidate has given the following options. (It is only an Example)

Priority Number	Options	Priority Number	Options
Option1	M.Tech	Option 6	M.Tech
Option 2	M.Tech	Option 7	M.Tech
Option 3	M.Tech	Option 8	MBA
Option 4	MBA	Option 9	M.Tech
Option 5	MBA		

The computer starts M.Tech seat allotment with Rank 1. Then after completing allotment till rank 1199, it reaches rank 1200. Raju's M.Tech rank is 1200. Option number 1 is not available. Similarly option number 2, option number 3 is not available as the candidate above his rank has already been allotted and no vacancy exists. The next option is 4 which is MBA, hence it is not considered in this stage. Next option is also MBA which is also not considered for allotment. The 6th Option is M.Tech so it will be considered for allotment and the 6th option is available computer will allot the seat under M.Tech to this candidate and the options below 6th will not be considered for future allotment. (Options below will be freezed)

CASE2: (It is only an Example)

Name of the candidate: Syed Category: 2B - MCA Rank : 1450 - MBA - 1340

Priority Number	Options	Priority Number	Options
Option 1	MCA	Option 6	MCA
Option 2	MCA	Option 7	MBA
Option 3	MCA	Option 8	MCA
Option 4	MCA	Option 9	MBA
Option 5	MCA		

The candidate is considered as per his rank and as per his options in the order of priority mentioned by the candidate. The computer starts MCA allotment with Rank 1. Then after completing allotment till rank 1449, it reaches rank 1450. Syed's MCA rank is 1450 and hence option number 1 is not available. Similarly option number 2 is not available as the candidate above his rank has already been allotted and no vacancy exists. Likewise it goes up to the option 6 by checking the vacancy. The next option is 7 and the option is MBA which will not be considered at this stage. Therefore the computer move on to the next option i.e., option number 8 and the seat is available. Hence the computer will allot option number 8 to the candidate.

CASE3: (It is only an Example)

Name of the candidate: Peter Category: GM - MBA Rank : 150 -

Priority Number	Options	Priority Number	Options
Option 1	MBA	Option 6	MBA
Option 2	MBA	Option 7	MBA
Option 3	MBA	Option 8	MBA
Option 4	MBA	Option 9	MBA
Option 5	MBA		

The candidate is considered as per his rank and as per his options in the order of priority mentioned by the candidate. The computer starts MBA allotment with rank 1. Then after completing till rank 149, it reaches to 150. By checking the each options entered by him the computer will reach upto option number 8. Since all the seats up to option 7 have already been allotted to the higher rank holders there are no seats available. Therefore the computer considers the 8th option and allot the seats as per his merit.

The same procedure is followed for all the eligible rank holders from 1 to last rank. Then the computer starts M.Tech seat allotment. Again the same procedure will be adopted for seat allotment. Each stage is known as one iteration. Therefore there may be many iterations in one round. The iteration will stop when the seats are exhausted or the choice of the candidate is over. By this method the candidate gets the best of the best seat as per his choice and options and as per his rank. The candidate can track the allotment of seats in every iteration stage.

There are few candidates who have got ranks in multiple disciplines, like ME and MBA or MBA and MCA. While allotting the seats at each stage the computer will check the previous allotment and if seats are already allotted to a particular candidate, then while allotting the seat to a different discipline as per the merit the seat allotted earlier will be cancelled automatically and the same seat will come back to the seat matrix pool and it will be offered to the candidates as per the merit.

(7) PROCESS OF ALLOTMENT OF SEATS AND ADMISSION

The seat matrix issued by the Government for each discipline will be adopted for allotment seats. College wise, course wise and category wise seat matrix issued by Government will be hosted on the KEA website for the information of the candidates and parents. After the last date and time fixed for entering the options is over and as per the seat matrix issued by the Government, action will be taken to allot the seats in the order of merit based on the priority of the options entered by the candidates and by following the reservation policy of the Government.

The order of seat allotment process is as follows:

- In the case of M.E. / M.Tech./ M.Arch (Full Time) courses, first seat will be allotted to VALID GATE SCORE candidates irrespective of the Karnataka or non-Karnataka. However, reservation is applicable only to those who become eligible as Karnataka candidates as per item 6 of Chapter 1 of the PGCET-2024 e-bulletin and the same is not applicable to Non-Karnataka GATE rank holders. Non-Karnataka GATE rank holders will be considered under Open / General Category.

All eligible MCA rank holders including the candidates, who have allotted seats under the Physically Disabled and ME / M.Tech courses, will be considered for allotment of seats in accordance with their ranks.

iii) For MBA Course

The MBA seats pertaining to all reserved categories, Ex-Defence and General Merit students will be offered in this stage at once. All eligible MBA rank holders including the candidates, who have selected seats under the Physically Disabled or MCA or ME / M.Tech seats will also be considered for allotment of MBA seats in accordance with their ranks.

The allotment of seats will be conducted in the following two rounds and each round consists of three phases and each phase consists of number of iterations.

- 1. First Round.
- 2. Second and Final Round.

1. FIRST ROUND SEAT ALOTMENT

- (i) After the last date and time fixed for entering the options is over and as per the seat matrix issued by the Government, action will be taken to allot the seats in the order of merit based on the priority of the options entered by the candidates and by following the reservation policy of the Government.
- (ii) The computer begins allotment with the Special Category seat for Physically Disabled and Ex-Defence.

- a. The computer starts the allotment with the Physically Disabled persons / Ex-defence as per their rank and options. As per the Act, 3 % of the seats in all Government, Aided and Unaided private colleges are reserved and candidates belonging to the Physically Disabled Category can give options as per the seat matrix in these colleges.
- c. General Merit category candidates will be considered only in the General Merit quota. The rank list will be invariably followed for allotment of seats. All Reserved category candidates will first be considered for allotment in General Merit as per their merit and rank and as per the options given by them. After the General Merit seats are exhausted the candidate belonging to the respective categories will be allotted the seats in their respective category as per their rank and as per the options given by them.
- d. Hyderabad-Karnataka reservation will also be considered for allotment of seats.

(a) 1st Phase of allotment of seats:

Based on the merit and priority of options the first phase of allotment begins. The computer will first allot the seats in the above mentioned order and continues in the same order. While allotting the seats in the 1st Phase at any stage, the seat allotted if any, will automatically get cancelled upon allotment of a seat in the subsequent discipline and such cancelled seat will be considered for allotment of a seat in the next iteration.

Therefore, multiple iterations may take place in the 1st Phase. The computer will stop the allotment only if the last seat is allotted or when it reaches the last rank in each discipline. That means the candidates will always be climbing upwards both in options and in roster. The order of allotment as shown above will get repeated in the 1st phase until there is no change in the allotment of any candidate.

IMPORTANT:

This procedure for conversion of seats will be adopted before the commencement of 2^{nd} Phase of allotment. Further, if the reserved category candidates are allotted with a General Merit / respective reserved category seat during the 2^{nd} phase of allotment, then a reserved category seat becomes vacant. Such seats are treated as 'CONSEQUENTIAL VACANCIES'. These consequential reserved category vacancies that arise during the 2^{nd} phase of allotment will remain under the same categories and will be offered only to the candidates belonging to the same reserved categories.

NOTE: All GM consequential vacancies which arise in this phase will be considered for allotment in the 3rd Phase of allotment.

(b) 2nd Phase of allotment of seats:

In this phase also, the order of seat allotment remains same. Based on the merit and priority of options the second phase of allotment begins. The computer will first allot the seats in the above mentioned order and continues in the same order. While allotting the seats in the 2nd Phase at any stage, the seat allotted if any, will be released automatically upon allotment of a seat in the subsequent discipline and such released seat will be considered for allotment of a seat in the next iteration.

Therefore, many iterations may take place in the 2nd Phase also. The computer will stop the allotment only if the last seat is allotted or when it reaches the last rank in each discipline. That means the candidate will always be climbing upwards both in options and roster. The order of allotment as shown above will get repeated in the 2nd Phase until there is no change in the allotment of any candidate.

(c) 3rd Phase of Allotment of seats:

After the allotment of seats in the second phase of allotment, the seats that remain unfilled under various reserved General categories such as SCG, STG, 1G, 2AG, 2BG, 3AG, 3BG, along with unfilled special category seats, if any, will be converted to the General Merit category and offered to GM candidates along with all other reserved category candidates in the 3rd Phase of allotment. However, the consequential reserved category seats that arise during the 3rd Phase of allotment and if remains unallotted and if there are no seats in the respective category and will be made available for allotment only to the respective reserved category candidates during 3rd Phase of allotment.

In this round also, the order of seat allotment remains same:

All the candidates will be considered for allotment of seats in this iteration. Before commencement of 3rd phase the computer will display the number of seats that got allotted in each discipline, total number of candidates allotted and the number of seats remained unfilled and number of candidates un-allotted.

While allotting the seats in the 3rd Phase at any stage, the seat allotted if any, will be automatically released upon allotment of a seat in subsequent stage and such released seat will be considered for allotment of a seat in the next iteration.

Based on the merit and priority of options the third phase of allotment begins. The computer will first allot the seats in the above mentioned order and continues in the same order. While allotting the seats in the 3rd Phase at any stage, the seat allotted if any, will be released automatically upon allotment of a seat in the subsequent discipline and such released seat will be considered for allotment of a seat in the next iteration.

Therefore, many iteration may take place in the 3rd Phase also. The computer will stop the allotment only if the last seat is allotted or when it reaches the last rank in each discipline. That means the candidate will always be climbing upwards both in options and roster. The order of allotment as shown above will get repeated in the 3rd Phase until there is no change in the allotment of any candidate.

Speciality of 3rd Phase of allotment is, after completion of last stage of allotment of seats, the seats remained un-allotted if any, in any reserved category will be converted to GM automatically and will be offered to all the eligible candidates from 1st to last rank based on the priority of options entered. That means repetition of phase 3 allotment process will take place. Phase 3 allotment stops only when there is no seat in reserved category and no change in the allotment.

Summary:

This illustrates that at each stage, the options are getting shrunk before moving to the next stage, if seats are allotted. If seats are not allotted, the options list remains unchanged.

The seats which are returned back to seat matrix in the process of allotment stages will be allotted to the next candidate as per rank and options. This way there will be a number of iterations till the candidate gets the best seat of his choice governed by rank. This means, the system halts allotment when no seats are available for a candidate as per his options.

All the steps taken together as detailed above will form one round and the stages mentioned above, are known as iteration stage / phase. It is very important to candidates to give their options very carefully and after considerable thought and after discussing with their parents and elders. If by chance the options given by the candidate is not well thought he may lose a seat in a good college as he may not have given option for that particular college or would have given lower options. For example a candidate is interested in college A, but by mistake or by oversight he has given a lower preference for that college and has given higher preference for some other college. The computer then will allot a seat as per his rank and as per his higher priorities. In this way he may tend to lose a seat in the college of his choice merely because he has not given a correct priority of options.

(8) POST SEAT ALLOTMENT PROCEDURE – CHOICE BEFORE A CANDIDATE

After the entire iteration of all the discipline in all the three phase is complete the final list will be announced on the website and this is known as the First Round. Therefore, many iteration may take place in one round as per the choice of the candidate and as per the availability of seats. The candidate can track down the movement of seats in the different iteration stages to satisfy himself that the best of the choices is allotted to him. Virtual tracking of the process of allotment by the computer can be viewed by the candidate after allotment. This ensures transparency in the entire allotment stage and KEA is known for its motto **Trust Through Total Transparency**. The final list of the First Round will be hosted on the website, in the Helpline Centres and individual allotment will be sent by SMS, e-mail and the candidates are requested to note the allotment of seats to them in the First Round.
